THE MAN OF THE YEAR

Time Magasine, having extended its long nick for twenty-four years by picking one individual annually as aking of the Year, has this year departed from custom. In other years, greak howle of protest have arisen as George Marchall, Winston Churchill, Franklin Roserett, Harry Trumana and other luminaries have occupied the mythical ton idet.

Samuell, Window Churchill, Franklin Rocervat, Jastry Truman, and other huminaries have occupied the mythical top slot.

This time, the magazine picked a group of men, and humped them into a composite — the American fighting man. But allow over from the English buildow, Windows in the magazine in English to the Windows of the project. He is depicted on the cover of the magazine in fighting uniform, and is described by the edition as the man who did most lot on the cover of the magazine in fighting uniform, and is described by the edition as the man who did most lot on the cover of the magazine in "Letters" column, and this year everyone from Joseph Stallan to Pope Fius was nominated. But all were overshadowed by G.I. Jos.

Stalistament were eliminated because they had inside to distinct the contents of t

countries.

And so the honor went to a man who sought it least; the American soldier. The magazine says that "destinys draftee" found himself "in the bittery unwesterner roll or it the fighting man. He was not cleastified as civilizations are sufficiently as a fightey, pure not dissiple to the sufficient of suf

TAKE CARE FOR CHILDREN ON FOOT

Highway accideht figures show that more children on tool are injured on highways in whiter than in the summer membra. Analysis of reports showed that nearly two-thirds of the accidents to children happen when the reality too its west, snowy or icy. No matter how exertful the driver of a carry of the control of the contr

dents.

Another fact which is referred to in the Oniario Govemment Services report for January is that most accidents to children happen in the daylight. This is natural for not so many children are out after dark. Figures show that about one-fifth of all winter accidents that injure children on for take place after dark and also note one half of all winter accidents to about one half of all winter accidents to children on fort take place after dark and also note one half of all winter accidents to children on bicycles happen after

dark.

MODERN CHILDREN AT PLAY

A young notice watching for 10-resc-oil con and his little size so pay noticed that the children engaged in an unusual seri of carceles, says Coronet Magazine. The boy was running around the garden, his arms outstretched, while the little sign race at ster him, making an odd whining sound. For a while the mother watched in sizence then she saked her little caughter what he was doing. The child explained that she was second of the super-scale place instanted by her brother.

ere's a lot of difference between a repair job that as-ally renews your equipment and one that just "gets by."

Genuine Aills-Chalmers repair parts fit perfectly and are made of the right materials for the job they have to do. You save money became the new parts last longer, your entire machine lasts longer and you get better per-

All repair parts installed by our sechanics are made in same factory and to the same specifications as the ginal parts in your Allis-Chalmers equipment.

Now is a good time to have your equipment checked for worn or broken parts.

Pure Nickel... THE CANADIAN METAL

It was in the year 1751, that a Swedish scientist named Cronstedt obtained from a piece of ore a metal hitherto unknown to science. He named the newly-discovered metal "Nickel."

Since that time, nickel has become the metal of a thousand uses, in industry and in the home. Because 80% of the world's nickel comes from Canadian mines, nickel can truly be called the Canadian metal.

The new Canadian nickel, commemorating the discovery of nickel 200 years ago, is minted from pure Canadian nickel.

Issued to commemorate the 200th anniversary of the discovery of nickel by Cronstedt

is a year bigger...

As compared with 1935:

As a place in which to live and work, to ears money and enjoy it; Canada grew tremendously during 1990. If grew with new and bigger olifields, fectories, mines, bones, schools, stores and trade. Infact, Canada grew in precidently every department of life and effort. The Royal Bank of Canada shared in this growth—growing with the country, helping ill to grow. For there is no field of Canadian expansion in which the Royal Bank has not shared

Our loans to farmers, fahermen, industrialists, to firms large and small and to indu/viduals, aboved marked lacrens during the year just closed. Our deposits grew to \$2,357,000,000 our satests to ever \$2,497,000,000—both new records in Canadian banking.

We improved our premises in many places to provide faster, more convenient service in congunial surroundings, and we opened a number of new branches to serve repidly expanding communities in cities, towns and rursh areas:

Looking forward, we shall continue our efforts to serve all Canadians efficiently and in a spirit of helpful friendlines

POPULATION GROWS

FOFULATION GROWS

One of the signs of the times of the past few specially since the end of the Second World War, he the expansion of population in Canada and in so many the communitie of this country and control of the country and at the same times the population of the country as a whole has risen as well as the same times the population of the country as a whole series of the country of the countr

Done.

The Dominion has gone beyond the 14,000,000 mark in population within a short period of time and this growth proves the selfa foundation on which expectation of continued growth may be expected.

In the years since the Second World War came to an end, Canada has assumed greater importance than ever as a result of the enterprise of her citizens and her growing wealth of developed resources in fortiers, mines and sead in the widening cuttools of the Dominion of upon the

ROMANCE OF A PLANT

The remantle story of the orcible is one of the most interesting to those who cultivate flowers. To those who think of the orcible as an exotic bloom from fac-away mentions and the orcible as an exotic bloom from fac-away from Engiand. The founder of this firm began lie career as a securian, making door-to-door sales near London.

It was an odd meeting with most important results of Breatl and Venezuela, the haunts of many varieties of Breatl and Venezuela, the haunts of many varieties of Breatl and Venezuela, the haunts of many varieties of Breatl and Venezuela, the haunts of many varieties of Breatl and Venezuela, the haunts of many varieties of Breatl and Venezuela, the haunts of many varieties of breatly with orchid. This explorer named Rossi washed to being some of them home to England but he did not bring some of them home to England but he did not being some of them home to England but he did not being some of them home to England but he did not being some of them home to England but he did not being some of them home to England but he did not being some of them home to England but he did not being some of them home to England but he did not being some of them home to England but he did not being some of them home to England but he did not being some of them home to England but he did not being some of them home to England but he did not being some of the with credit and the sound being some of the sound being some the sound being some of the sound being some the sound

a mammoth shipment of exolic plants from South America.

Manufacture and years ago, Wealthy industrialists and members of the landed gentry in Engiand bargained for the seedman's friendalip to get the best ordinal. The result was that overseas orchid hunters posed as parsons. The flowers became such a passion for the Sanders England brought fabrilus price of the Sanders for the year 102, Frontierle Sanders from the year 102, Froderick Sander, con of the formeder of the business in London, raised the first orchid from seed, causing no little carrichesis in the formal world.

This is a hardy perennial which is easy to grow and has a wealth of bloom. Flowers are large, glistening white with long stems which make them invaluable for culting. The culture is easy. They should be planted about one foot apart in deep rich soil always in full sun. It is advisable to lift and divide root stocks every alternate year. This assures compact growth and larger flowers.

find to stear up the Blastica, and in answer to several requests as to what the senior hockey set-up ill in these and other parts we are quoting the Outsite Beckty Association's version of the matter.

Ontario's senior teams are divided into four groups—ene in eastern Ontario, one in central Ontario and two iii the southern peninsula. Northern Ontario does not come under the O.H.A.

The eastern group has entries from Eingelen, Salleville, and Queen's University Combines, and two from Poterberough.

The central circuit, dubbed the big seven, has teams from Toronto, Owen Sound, Markham, Stouffville, Wood-bridge and Alliston.

Woodstock, Brantford, Port Colborne, Niagare Falls, Dundas and St. Cetherlnes teams are battling if out in a Niagara district grouping, while Serule and Chatham have representatives in the feurih loop.

The champion in each group will have its choice of competing in the Allan Cup playdowns or the On-tarie championships, If the top team decides not it go for the Allan Cup, the second - place issue will

Gress champions must be named by March & and playoffs start shortly oftenwards. Teams competing for the Allan Cup will be called Smior A squads, those in the Ontario championship, Smior B.

Savings are Savings are Savings Many people in our time of the sentance, "A rose is a rose is

a rose." It was written by a. modern writer named Gertrude

Stein. She explained her "most-quoted" sentence like this: "If you say 'a rose is a rose is a rose' only once, you become aware of roses - 🔀 and that is all I want you to be - aware of roses."

So, if we say: "Savings are savings are savings"will understand we are trying in make you ware of savings. It seems that, if we say a thing often enough, it will register

health, your security in time of sickness.

You do not have to repeat your visit to The Dominion Bank...to open a Savings Account with us. But repeated visits to your nearest Branch will open the door ... to Security... and start you up the ladder... to Success.

NO WASH. NO WIPE TONIGHT! No Wash-No Wipe, Tonight Self-Washing Dreft Means No Work Left No Wash- No Wipe, No Wash. Tonight! No Wipe Tonight! ALL YOU DO IS RIUSE even pots and pans glisten! YOU DON'T WASH ... Instead of washing dishes just let them soak in warm Dreft soaks for 2 minutes. Dreft Soats grease and, food particles away, Your hands don't even touch the dishes, giving a swish of the cloth where needed, and presto! They're done! YOU DON'T WIPE ... New Sulf-Washing Dreft leaves no dishwater film. It weshes dishes and glasses so clean, they shins —even without wiping. YOU DON'T SCOUR ... Even pots and pure sost clean. Drel's amazing "font-away" action gets under grease ... lifs it off. Then grease rises away ... without scouring. BEAUTY THE New Dreft is so mild, and your hands are in water so little, it leaves hands beautifully white and soft!

IT'S MAGIC...SHEER MAGIC...IT'S SELF-WASHING

efficient of all TRUCK ENGINES!

Comfortable of all IRUCK CABS!

A GENERAL MOTORE VALUE

In these greeter-than-ever 1951 GMC's you'll get the constant dividend at GMC's greeter pulling power...truck-built horsepower with greater sustained torque than other engines. And with that power goes the greater staming of GMC's rugged truck-engineered frame! You get extra-value features in every model.

Underneath the brawny beauty bil the new 1951 GMC, there's truck engineering that will pay off in operations—cut maintenance costs—step up dependability even highen. Divers get more comfort than ever before—owners get more power, with real economy. GMC gives you far more choice—models built to do a job on every kind of truck operation.

Sure, they're the greatest of all trucks! See them today at your GMC dealer's!

RESERVE SEATS ON SALE AT MILL COOK'S CICAR STORE Reserve Seat Tickets will not be held after 6 per night of game.

You went to drive with one oran Harry !

BUT HENRY HAS BOTH HANDS BUSY. NOW . . . trying to keep the old bus on the road because his wheels are out-of-line. Misaligned wheels cause "road weave," forcing the driver to "fight" the steering wheel. Out-of-line wheels est up rubber, too, because the tires are literally dragged sidewise down the road. It im't only annoyingit's expensive.

Come in today and let us align your wheels with our precision John Bean Wheel Alignment System, Savings in tire weer alone will more than per forthe job.

The catalogue may seem in a sense out of judee in a winty word, but just the same Mother the ciph like in a winty word, but just the same Mother the ciph of wheter ing the rebirth in the soil. This document, the catalogue, really starts thoughts budding in the mind with its westlin of coloring which would impire the thoughts of fields.

In the country the farming population does not forget the value of these winter days in view of what is secon-plained in the seasons when everywhere there is growth and there is bloom. At this time the same the growth and there is bloom. At this time the same way and the only way, Soon again the processes of growth will begin.

Now the catalogue with its rich colors creates a long-ing for those days when the sarth will again begin he the populations of this country and other lands.

The catalogue is a reminder that after winter comes spring, them summer and sutumn, the time of in-gathering of the other and a contract does not be a for the contra-

mother harvest. In its way the seed catalogue does a great deal to pre-re for the time when the snow is gone and the fields will come alive with new life and growth.

And here, at Mismorial Arrens, after being in con-fred for the best of the roots, the Redmen sityped a gaze for a few minutes and wave odged out by the league. Insafer Ferichward, Petter 6-K. The Rede had the Prior problem solved, so to specify, but would not hang on to what second to be a mild 4-5 tend.

The second and third lines carried most of the ma against the Price, with Lecth McDonald getting the roses is a standout performance. He nalled two counters, and we well both ways all night. Jackle Wardheugh and Johns Green were also impressive.

These Prior, always a bunch of opportunists, stress its gain has night as they belw up in that distress their. Give them in tack, and they'll more peak. Which they did, and wart on to take the d. The flockers had the best of the play until that districts, and tocked to be grilled warry with the win.

But in this took, ye we see "go as a "g

LOOK WHAT AUSTIN OFFERS

VALUE-WISE

ALUE cannot be measured only in terms of dollars because value also means many things which you mes cannot see. When applied to automobiles, value some such qualifications as thorough, painstaking workmanship, quality of materials, experience of designers and engineers - in fact everything that goes to make a superior product at a fair price.

Austin comes through on all these counts with flying colors, and continues to prove it by being the most preferred car ever to come to these shares. More and more Canadians are appreciating the honest value inherent in every Austin.

Maybe folks should look at security this way"

It seems to me that keeping yourself when you get up in years ii something like keeping up a car.

You can't run a car on just gas. It's got to have plenty of oil and grease too. And I figure the same idea works with me and the money I'll need someday.

Suppose I get paid some kind of old-age benefit, the same as everybody else. I'll be mighty glad to get that money. But I'm going to want more money com-ing in. And that's just what I'm saving

Even then I won't be living the life of Reilly. But at least I'll have most of the comforts I want. And right now it's mighty good to know that if anything happens to me, my life insurance will take care of my family.

Anyhow, don't you think a man should help provide for his own security? I do. And millious of other Canadiana are doing it now — with their own life insurance.

Each year over 200 million life insurance dollars are invested for policyholder, "will it new houses, schools, roads, power plant" anany other vital projects that promote project and create jobs throughout the nation. Thus, "while life insurance helps build security for you and yours, it slos halps raise your living standards!

a Little buys a Lot of telephone service

EVERY BAY we receive hundreds of requests for service. Its cost base's gone up as much as most other things you buy; in fact, your telephone bill now takes a smaller part of the family budget than it did five years ago.

With more and more families getting telephones, you can now talk ill twice as many people. And so, in that way alone, you get a lot more telephone service for your money.

At the same time, the quality of telephone service keeps steadily improving in many ways, and, as always, telephone people try to be helpful and friendly.

Any way you look at it, today's telephone is big value!

If you haven't get got services

You can be sure your neighbourhood will be served, and year place on the list protected. Taking care of people without service as quickly as penaltic is one of our biggest and most important tasks.
